JOB DESCRIPTION

Pennoni Associates, established in 1966, is a multidiscipline engineering and design consulting firm that provides personalized services and solutions to meet the needs of our diverse clients. Pennoni provides services to local, state, and federal government clients, private, commercial, industrial, and construction clients as well as to other professional firms.

Job Description

Pennoni Associates is currently looking for a Project Manager with experience consistent but not limited to:

- Ability to identify and capture new work from existing clients
- Functioning as a client account/project manager for industrial hygiene and environmental services
- Ability to use strong communication, financial and client management skills to deliver projects on-time and under budget
- Natural authenticity, humility and resonant leadership style to deliver respect and results
- Ability to identify new opportunities, capture new work and lead teams on project assignments
- Estimation of abatement/remediation projects and/or review of bid pricing; Technical management of asbestos projects, building surveys and industrial hygiene assessments.

Why Work With Us?

Pennoni Associates Inc., an ENR Top 500 consulting engineering firm, has been named as one of the Best Places to Work in Pennsylvania and New Jersey. According to the results of the surveys, Pennoni has built a great workplace where its employees trust the people they work for, enjoy the people they work with, and take pride in what they do. Our excellent work relationships are strengthened because of our unique ability to anticipate and exceed expectations of our clients by using multi-disciplined engineering, ensuring the continued success of their projects and our firm.

JOB REQUIREMENTS

- Required education: Bachelor's Degree - technical, science, management or related field.
 - Minimum years of work experience: 10-15 years.
 - Minimum years of management experience: 12+ years as an industrial hygienist and/or scientist and 5 years as a Project Manager
 - Other: 3-5 years as a Pennoni PM is preferred. Some senior design role or mentoring/team leading required and financial or operation management is also required.
 - Licenses required: Federal and local asbestos/lead licensing required. Certified Industrial Hygienist or Certified Safety Professional preferred.
 - Computer skills required: Microsoft Project or other Project Management software, Bluebeam, Excel, Pennoni Billing systems, CRM.
-
