Mid-Atlantic Construction

I am not sure if your company is hiring at this time, but I have been in search for a company to sponsor me for a Carpenter Apprentice position. In March 2019, I passed the carpenter Apprenticeship test. At the time I was still in high school and I focused on my studies. I graduated from Bristol High School as Salutatorian in June 2019.

Summer began and I was very eager to begin working. While I started reaching out to dozens of companies weekly trying to find a sponsor, I took a job with an open shop carpentry company, Rock Solid Carpentry, Inc. , a subcontractor that's been in business for over 10 years. For the past four months I have worked full-time trying to gain any knowledge and experience I can about carpentry and the trades in general. Being that I am a recent high school graduate, I feel I have gained the most experience I could have gotten during this short time.

After reviewing my resume, I hope you will agree that I am the type of candidate you are looking for. I look forward to elaborating on how I can benefit your organization. My father, Peter M. Vandine has worked for your company in the past and recommended I reach out. Please contact me at (267) -981-0463 or via email at pvandine913@gmail.com to arrange for a convenient meeting time.

Thank you for your consideration, and I look forward to hearing from you soon.

Sincerely,

Peter Vandine

Resume attached below.

Summary

Growing up I have always been surrounded by carpentry. My father, Peter M. Vandine has been in the Union for 18 years, working as a carpenter journeyman, foreman, and superintendent. For as long as I can remember I have always been by his side when he worked at home and I still am. I have been trained to get the job done right and work hard and efficiently. While we worked he would mentor me and teach me everything he could. I was basically his apprentice.

Since I am only 19, I do not have much official work experience due to the fact I was in school. Throughout my entire education career I excelled in every class and graduated at the top being Bristol High School's Salutatorian. I treated school like it was my job and I mastered it, and this will only translate to my future career.
