PROFESSIONAL EXPERIENCE:

Carr & Duff, Inc.

6/16 to 12/19

Safety Coordinator

Carr & Duff, Inc. is a privately-owned company. My duties included safety and quality inspections of underground, aerial and inside electrical work activities. I had specific control over all safety policies and procedures related to PECO utilities contracts. New hire on-boarding for all new employees was also a primary responsibility. Maintaining relationships with safety vendors daily. Cost control and safety material acquisition was a daily task. Maintained relationships with project managers and assisted in bid proposals daily. Assisted with background checks for workers. Maintained yearly OSHA logs and posted at all required locations. I have conducted Confined Space training, Reasonable suspicion training, Accident investigation (TapRoot) and participated in Amtrak safety training, Septa safety training, AED training, CPR training and many seminar training blocks. I am an OSHA 500 outreach trainer, OSHA 3010 Excavation and trenching certified, signal person qualified, forklift qualified, etc..

Riggs Distler & Company, Inc

12/13 to 6/16

Safety Coordinator NRCG

As the safety coordinator my responsibilities are safety and quality for new construction electric and gas utilities on PECO systems. Additional duties include preparing as built information for the client, PECO. Daily interaction with the client is also a crucial part of my position. Ordering and receiving required safety and operational materials is another responsibility of this position. The NRCG staff includes all union workers from a number of professions, IBEW, Laborers, Trades, etc. I conduct multiple safety meetings and trainings weekly.

Danella Construction Company

12/11 to 12/13

Safety Manager, Utilities

As the safety manager for Danella Construction I managed a staff of 7 safety professionals and conducted audit and observation duties of 20-30 utility construction crews. I also conducted all OSHA training for the 200-250 workers.

KENNY CONSTRUCTION, Power Division

11/07 to 11/11

A privately held construction firm with an 81year history of expertise in power, building, tunnel, transportation, and underground industries

Project Safety Manager, Power Group

As the project safety manager for Kenny Construction Company I conducted over 1600 safety orientations for new hires and sub contractor employees. Overseeing the daily safety requirements was also a duty of this position. I conducted daily DBO2 safety audits for all projects which included numerous subcontractor and Kenny Construction Company personnel. I maintained the OSHA 300 log for all Kenny Construction Company work sites in the Philadelphia Region. I conducted training for Kenny Construction Company personnel and subcontractor personnel including general safety, substation awareness, confined space, first aid, environmental excavation, client safety alerts, environmental updates and work site hazards. I actively participated with all PECO contractors of choice safety, quality control and general site management requirements. I lead all investigations related to job site injuries and follow-up corrections. Monthly status reports were filed with our customer, PECO, including OSHA, workforce and safety controls. An unending

responsibility was maintaining the safety equipment and supplies required to complete Kenny Construction Company projects. I also conducted numerous project management responsibilities including site supervision, designated authorities contact and materials procurement. I was also the Environmental compliance manager for all Peco/Kenny work locations.

INFRA SOURCE UNDERGROUND SERVICES, King of Prussia, PA **06/07 – 11/07**

Ground hand/Safety Representative, (6/2007 to 11/2007)

Conducted Safety related information sessions daily for underground electrical Construction crews. Prepared daily safety information reports and maintained personal protective equipment use and supply. Safety begins with knowledge and having knowledge has greatly reduced safety related incidents.

HARLAN ELECTRICAL CONSTRUCTION, Carlisle, PA **04/07 – 6/07**

Ground Hand/Safety Representative, (4/07 – 6/07)

Conducted daily and weekly safety meetings related to the construction of a 9-mile, high line electrical project. Daily meetings enforced proper personal protective equipment use and safe and proper operations procedures. Weekly meeting highlighted environmental concerns and incident/job status reviews.

MONTGOMERY COUNTY, Norristown, PA **1990 - 2007**

Deputy Sheriff, (April 1990 to May 2007)

1990-1995 - Responsible for educating more than 2450 students to complete the 16-week DARE Curriculum. Improved the decision-making skills for thousands of Montgomery County, PA youth. I truly changed the future.

1995-1997 - Over this two-year period I successfully reduced the inventory of unserved money judgments from a daily average holding of 100 units to an average of less than 10 per day, reducing departmental labor expenditures by 52%.

1997 – Present - Increased departmental utilization of “Black-Box” technology in the transport of high-risk subjects. Applying this technology daily over the past 9 years has completely eliminated escape attempts within this department. This has created a safer workplace.

EDUCATION

SAINT JOSEPH’S UNIVERSITY, 2003, Philadelphia, PA
