

Senior Safety Specialist

Progressive Monmouth County, NJ Heavy, Highway, Bridge & Building {HHBB} contractor is seeking to fill its Senior Safety Specialist opening. Applicants should possess:

- Minimum of 10 years Safety Specialist experience working for HHBB contractors.
- Strong Communication and Interpersonal Skills.
- OSHA 500 training.
- Accident/Incident Investigation training.
- Operations, principals, practices, services and activities of a comprehensive occupational health and safety program.
- Methods and techniques of statistical analysis.
- Methods and techniques of work design solutions to health and safety issues.
- Safety training program development and implementation.
- Methods and techniques of assessing safety hazards and implementing corrective measures.
- Knowledge of OSHA rules and regulations.
- CHST certification preferred.

Successful Applicant will oversee and supervise other safety staff members; assist in the design, analysis, review, administration and implementation of the Company's occupational health and safety programs; provide detailed solutions to complex safety problems; coordinate activities with other departments and divisions; ensure adherence to safety practices and policies; perform a variety of tasks relative to assigned area of responsibility; and perform related duties as assigned.

Highly competitive salary and benefit package, commensurate with the successful applicant's experience, will be provided. Interested candidates should send their resume electronically to HR@ghcci.com.
